Dear Friends,

As NorthPoint marks its 50th year of making health happen, we will not only reflect on the accomplishments of the past but also embrace the exciting things that the future presents.

NorthPoint is currently undergoing a major campus expansion that will consolidate all our services under one roof — enhancing our delivery of whole-person integrated care, community well-being and health equity.

With this new chapter we are preparing to deepen our commitment to making a difference — not only in the lives of those that utilize our services — but also the lives of all those who live, work and care about our community. We are tremendously grateful for the support we have received from you — our volunteers, supporters and partners over these many years and look forward to discovering what we can achieve together during the next 50 years!

Sincerely,

Stella Whitney-West, CEO    Juan Jackson, Board Chair
Our Mission

Partnering to Create a Healthier Community

Our Vision

NorthPoint Health & Wellness Center sets a standard of excellence in providing culturally responsive, integrated, holistic primary health and social services that strengthens our community and the lives of the people we serve. We are leaders and partners in a shared vision of a healthy, environmentally safe, and economically stable, self-reliant community.

Our Values

**DIVERSITY / INCLUSION**

We meet each others’ cultural needs and embrace our cultural differences and create an environment honoring each other’s dignity and contributions.

**COMPASSION**

We create a caring environment that encourages healing, growth, and well-being, and delivers accessible and responsive health care and human services.

**STEWARDSHIP**

We earn the enduring goodwill of our clients, our patients and their families, and we are accountable and hold ourselves to high standards.

**INNOVATION**

We support the rapid diffusion of new ideas and new technology, and deliver an integrated holistic approach to health and human services.

**INTEGRITY**

We treat each other fairly, and behave ethically.
NorthPoint Health & Wellness Center, Inc. (NorthPoint, Inc.) is an independent 501(c)(3) non-profit community services organization providing a broad array of social and human services designed to meet basic needs, promote health, and move individuals towards self-sufficiency.

NorthPoint Inc.’s human service programs are provided through five integrated focus areas. They are: Community Outreach (including programming designed to bring health care and healthy lifestyle choices into the community); Hunger Relief (including an on-site food shelf and a Mobile Food Program); Client and Family Services (client advocacy and family empowerment programs that focus on housing, education, and employment); the Renaissance Program (a mental health and chemical health outpatient program); and Health Policy and Advocacy work primarily focused on reducing the harms caused by tobacco.

Food is a basic right and NorthPoint’s Community Food Shelf and Mobile Food Marketplace Program provides access to healthy foods for those who need it most.

NorthPoint’s Community Food Shelf serves more than 1,000 households per month, providing a wide range of wholesome, nutritious food. The food shelf operates under a client-choice model meaning clients are able to select the food they know their family will use. Our Mobile Food Marketplace Program is one of the ways we are addressing the increase in hunger among our senior population. This program differs from other mobile food programs because in addition to providing food, a community health worker along with a staff nutritionist support the food shelf delivery team, providing free health screenings, nutrition education and other supports to residents on site.

Also each summer from May through mid-September, NorthPoint’s food team distributes free produce to the general public right in our parking lot. On average more than 300 families are served each week. These events are just a few examples of how we address hunger and work to improve the community’s health through our hunger relief efforts.
NorthPoint’s Community Outreach Department promotes preventative health measures by providing healthcare outreach and education to the community while assisting individuals in developing the necessary skills to improve their own physical and mental health.

The department also supports the community by hosting community celebrations including holiday meal distribution, Toys for Tots and back to school backpack and supply giveaways.

In 2017 NorthPoint’s Outreach Team provided health education to 5,121 individuals and the team made more than 2,659 contacts at 76 different outreach events. The MNsure Outreach Team provided health insurance assistance and helped enroll 3,583 families.

The Client and Family Services Department offers four holistic family empowerment programs that work to eliminate barriers to family stability through individualized case management supported with workforce and economic development programming.

Programs include:
- On Point Employment Services
- The African American Men Project (AAMP)
- Co-Parent Court Program
- The Gateway Project

In 2017, services provided through these Family Empowerment programs assisted 392 participants.
The Renaissance Program is a licensed outpatient chemical health treatment program that provides primary, co-occurring disorders treatment and relapse prevention services to adults with substance use disorders.

In 2017, the program administered 172 Rule 25 Assessments and admitted 139 individuals to the program. Fifty-three percent successfully completed program goals. Forty-seven percent were referred out with a recommendation for a higher level of outpatient care than what Renaissance could provide.

NorthPoint Inc. advocates for changes in policy and practice at the neighborhood and state level to build health equity. Our Health Policy and Advocacy staff also offer direct programming to foster social connections, connect individuals to resources, build civic participation, and advance systems change in support of health equity.

In 2017 a total of 661 volunteers provided more than 14,350 hours of service to the organization. That equates to nearly seven additional full time staff members. This represents a thirty-eight percent increase in hours from the previous year.
