

NorthPoint Campus Expansion

September 2016

NorthPoint Health & Wellness Center, and Hennepin County, in coordination with Thor Development and Estes Funeral Home we will be expanding the NorthPoint Campus at the intersections of Plymouth and Penn Avenue North. The campus will expand by 74,000 sf. Services will continue during construction.

Features of the Campus expansion

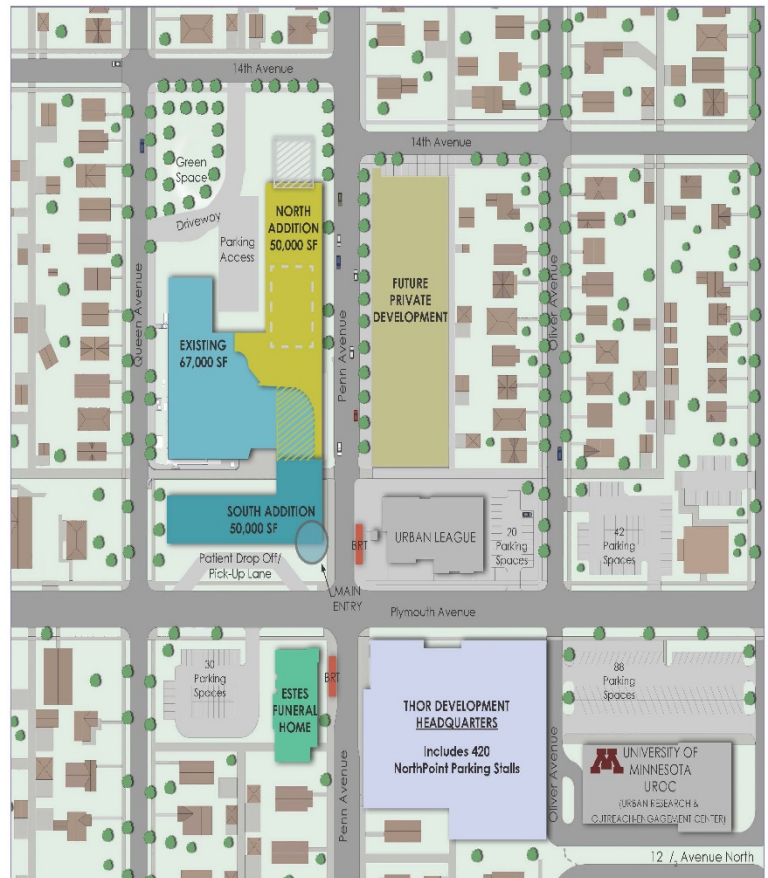

When completed the NorthPoint expansion will have:

- Expanded clinic and human services operations
- Space for future development
- Enhanced green spaces
- Improved Parking

Travel considerations

There will be detours as crews work on the demolition and building construction phase.

There will be local access for pedestrians. Also, all side streets will remain open—with only brief, off-peak closures of intersections during all phases of construction.

Anticipated building schedule

2016/2017

Completing the design of the campus

2018

Anticipating that construction will begin
